Copy of letter No.723 S.E., dated 29-5-1941 from L.M.F. Barrett, Esq., B.Sc.,A.M.I.C.E., Executive Engineer, West Coast Division, Calicut, to the Superintending Engineer, Coimbatore Circle:-

Sub: Buildings - Government - South Kanara - Mangalore - Collector's bungalow - Provision of additional light points.

Ref:- Your letter No.356 W.C. dated 30-4-41.

I submit herewith a sketch plan showing the existing and the proposed electric fittings in the Collector's bungalow at Mangalore. The additional lights now proposed are in accordance with the standard scale only.

2. The drawing room consists of two rooms with an arch opening. At present there is a single light under the arch common to the 2 rooms. Hence 2 lights are proposed to be provided in the drawing room proper and one in the other room treating it as a dressing room. This separate light in the adjoining room is necessary since there will invariably be a screen under the arch separating the two rooms. The light under the arch will be removed into this room.
